

Albany Project HOPE
Homeless Outreach and Engagement Program
Insight Housing Narrative Report to City Council
QTR 2: October 1st, 2025 - December 31st, 2025

The Albany Project Hope team has made progress this quarter in outreach and housing navigation efforts, supporting individuals experiencing housing instability in Albany. Our commitment to connecting unsheltered clients with essential resources, improving housing retention, and fostering collaboration with community partners has been at the forefront of our mission.

Activities this quarter include:

Outreach Efforts:

This quarter, case managers connected with 36 unsheltered individuals in Albany and 11 enrolled into HMIS for ongoing support. Specifically, this quarter, we enrolled 1 into Rapid Rehousing, 11 in the Outreach program and 2 people into our Housing Navigation program and moved those 2 folks into our master lease homes. Outreach was conducted multiple times weekly exploring the locations contracted and beyond within Albany jurisdiction providing daily opportunities to engage community members and share information about available resources. Short-term motel placements were not utilized this quarter because participants required longer-term housing solutions to effectively bridge the transition from homelessness to permanent housing; therefore, the program prioritized placements in master lease homes to provide a more stable, longer-term interim option.

Housing Navigation Services:

Housing navigation remained central to supporting participant stability this quarter. For Coordinated Entry System (CES) assessments, 5 were completed for our clients. 4 individualized housing stability plans were developed to address unique client needs. The team coordinated 65 housing search forms from participants, supported 3 rapid rehousing households in maintaining their current residences through stabilization strategies, and conducted 71 home visits to provide direct assistance and assess living conditions. 1 client required move-in cost assistance this quarter, and staff also assisted 4 clients in obtaining essential household items and basic needs, helping them maintain stability and improving daily living conditions.

Support for Landlords:

This quarter, staff provided ongoing support to 3 landlords, strengthening relationships that are essential to housing stability efforts. Support included education on tenant needs, collaboration around property maintenance, and reinforcing their willingness to partner with the Albany program. Timely

processing of Temporary Financial Assistance forms ensured prompt payments, further building trust and maintaining positive landlord partnerships.

Referrals and Linkages:

This quarter, Albany Project Hope connected participants with 10 external service providers to expand access to critical resources. Referrals included emergency shelter and basic needs through Dorothy Day House and the IH Men's Shelter, and housing and case management resources via Bay Area Community Services and the Homeless Action Center. Additional connections were made with Lifelong Medical, Social Security Administration, food pantries such as Berkeley Food Pantry, CalFresh, the Albany Laundry Program, SSVF program, Veterans Affairs office and also the Season of Sharing program which was referred specifically to an individual who needed assistance with paying back rent to avoid eviction and prevent homelessness. These partnerships strengthened participant access to essential services and contributed to improved stability outcomes.

Transportation Services:

Transportation support was an essential service this quarter. Case managers assisted clients 4 times with transportation to master lease shelter houses and other critical appointments. In addition, 1 Clipper card was distributed to a participant, helping them access food resources, getting to and from school, and other supportive services.

Service Tracking:

This quarter, we recorded 241 client interactions, reflecting a significant increase in supporting the diverse range of participant needs and the program's effectiveness in providing responsive support.

Challenges

During Quarter 2, Albany Project Hope experienced several challenges that affected outreach engagement, follow-up consistency, and housing placement pathways.

One notable challenge was the decrease in visible unsheltered individuals in previously known locations. For example, the grass regrowth along the Ohlone Greenway indicates that individuals who were previously present have not occupied the area for a significant period. This has created additional barriers to locating and maintaining contact with individuals for outreach and follow-up services.

Relatedly, there were several instances where individuals did not attend scheduled follow-up meetings in Albany. This lack of follow-through is believed to be partially influenced by the anti-homelessness law, as individuals may be avoiding the area or relocating to jurisdictions perceived as safer. This created a major challenge for us being able to stay in contact with these individuals to continue building rapport.

Within the master lease houses, documentation compliance presented an ongoing challenge. Not all participants consistently followed through providing required documentation for housing, benefits, or services. To address this, staff implemented more consistent engagement strategies, including repeated check-ins and the use of written reminders to clarify expectations and timelines.

Another significant barrier was that most participants in the master lease houses do not qualify for disability benefits and therefore do not qualify for the standard housing queue tied to those benefits. In response, the program has focused on providing stability while participants seek employment, supporting income development, and pursuing affordable housing options that do not require disability status.

Successes

Despite these challenges, Albany Project Hope achieved several significant successes during Quarter 2.

Three individuals from the master lease houses obtained permanent housing during this reporting period. One individual secured housing with a Rapid Rehousing (RRH) subsidy through Insight Housing, while 2 others were housed without rental assistance, one through aging into retirement benefits and moving into senior living and another through securing sufficient earned income from employment.

In outreach efforts, 2 individuals were successfully exited to housing navigation. Both individuals have since moved into shelter houses, where staff are actively supporting them in their housing search and stabilization process.

Overall, 4 individuals were moved into the shelter houses during this quarter, increasing program utilization and providing immediate stability to participants transitioning from outreach.

Program infrastructure also improved during this period. Documentation procedures were refined and expanded, resulting in more accurate and comprehensive tracking of participant interactions across service categories. As a result, data shows a substantial increase in documented discussions, reflecting deeper engagement and more holistic service delivery. Notable increases include:

- **Housing discussions** increased from 37 (July–September) to 84 (October–December)
- **Benefits discussions** increased from 2 to 23
- **Medical and mental health care discussions** increased from 1 to 23
- **Employment discussions** increased from 6 to 33
- **Referrals** increased from 1 to 22

These increases demonstrate strengthened case management practices, improved tracking systems, and a more intentional focus on addressing multiple dimensions of participant stability and self-sufficiency.

Goals for Next Quarter

- Hire and onboard a full-time case manager
- Continue daily outreach through Albany CARES and other community sites, with a target of connecting with at least 30 new unsheltered individuals and enrolling 20 of those or more into HMIS for ongoing case management.
- Support at least 3 clients with flexible funding for move in housing costs.
- Support 3 community members with Housing Prevention funds to prevent homelessness
- Get all our clients document ready plus gained income through benefits or employment to widen housing opportunities
- Develop two new partnerships with landlords or service providers to enhance access to affordable housing and supportive services.

By setting up these priorities, the program aims to build current progress, reduce risks of housing instability, and continue making a measurable difference in the lives of those we serve.

Project Performance Measures and Targets				
Performance Measure	Target	Progress/Activity this period	Year to date statistics	Comments
Outreach contacts (unduplicated contact with a new client	80	36	71
